

Regional Care Network Update

March 21, 2019

Memorial Sloan Kettering Cancer Center is expanding our ability to care for people in Nassau County and eastern Queens by opening a new outpatient treatment facility, MSK Nassau, on April 8, 2019. This means that our MSK Rockville Centre facility will close on April 5, and all patient care and services will relocate to MSK Nassau.

Until MSK Nassau opens, Memorial Sloan Kettering will continue to care for patients at its Rockville Centre location, located at 1000 North Village Avenue in Rockville Centre, New York.

Learn more about MSK Nassau here:
